OFFICE OF THE DIRECTOR

UNITED STATES DEPARTMENT OF JUSTICE

FEDERAL BUREAU OF INVESTIGATION

WASHINGTON 25, D.C.

November 29, 1963

BY LIAISON

Rear Admiral George G. Burkley
Physician to the President
The White House
Washington, D. C. 20501

Dear Admiral Burkley:

This letter confirms the information furnished to you telephonically by Special Agent Roy H. Jevons of the FBI Laboratory on November 27, 1963, concerning the piece of bone reportedly found by a student near the place where the President was shot.

In accordance with your request, this piece of bone was X-rayed and examined microscopically to determine the presence of bullet metal but none was found. A small amount of blood appearing on the surface of the bone was determined to be of human origin. There was not a sufficient amount of blood present for grouping purposes.

This specimen was delivered to you on the afternoon of November 27, 1963, by special courier.

Sincerely yours,

J. Edgar Hoover
